Curriculum Vitae

Valeriya Zarubina was born on the 20th of December, 1986 in Omsk, Soviet Union. In 2009, she graduated from Novosibirsk State University, Novosibirsk, Russia. She obtained her specialist (equal to MSc) diploma in the Faculty of Natural Sciences, Chemistry branch with specialization in Catalysis and Adsorption. Her MSc project was done in Boreskov Institute of Catalysis in the laboratory of Deep Oxidation, where she was inspired by many people to continue her scientific career. In the same 2009, she started a PhD project in the Chemical Engineering department of the University of Groningen, Groningen, the Netherlands. The results of that project are presented in this thesis.
